WITH THE COOPERATION OF

U. S. AIR FORCES

NEW CASTLE COUNTY AIRPORT

OFFICAL PROGRAM, 15c

For nearly four years now, Hercules executives have relied on company planes to speed them to business appointments. Two Lockheed Lodestars, based at the New Castle County Airport, enable executives to cut travel time and make

more business calls. The two planes, one of which was the first in the country to be equipped with plane-to-ground telephone, have flown a total of 500,000 air miles.
